

NOTHING COMPARES TO THE **CARRIER OPTICLEAN™**

THE HIGH EFFICIENCY **HEPA** FILTRATION THAT CLEANS THE AIR WITH 99.97% EFFICIENCY

SIMPLY AND EASILY INCREASE AIR FILTRATION BY 99.97% IN ANY ROOM

- **The long-life HEPA filter provides approximately 40,000 hours of operation, or four years, under normal operation and maintenance**
- Meets or exceeds the American Society of Heating, Refrigerating and Air-Conditioning Engineers (ASHRAE)'s Standard for 2-6 ACH for commercial buildings
- Supplements your existing HVAC system and quickly reduces select airborne pathogens without replacing or modifying your installed HVAC equipment
- Convertible to a negative air unit when necessary
- Flexible installation: mobile or fixed, vertical upblast or horizontal suspended
- Direct drive fan capable of free blow, distribution plenum/nozzles or ducted application
- Three-speed fan selector switch for various air flow ranges
- Easy access to change prefilter and HEPA plus built-in blocked filter indicator
- 115v power with standard 10' power cord
- Readily available in local stock or 3-4 weeks for volume orders requiring factory production
